

TZOLKIN: COUNT OF DAYS

JUST RELEASED – A Personal Tzolkin Calendar

- Makes it easy to follow the Mayan Sacred Calendar on a daily basis.
- Raises awareness of the energies unique to each of the 260 number and day sign combinations (13 numbers x 20 day signs = 260) that comprise the Tzolkin.
- Allows you to flow with the natural rhythm of the cosmos. When you are in sync with universal energies, daily life becomes easier and miracles occur more frequently.
- Grounds your spirit during these times of accelerating change.
- Tracks cyclical time, rather than linear time. The Tzolkin is perpetual, endlessly repeating.

Ian Lungold inspired our study of the Mayan legacy and we are honored to dedicate this calendar to his memory. Initially, we pasted together our own calendar and then our friends wanted us to create more. The project quickly took on its own energy and was completed at the midpoint of the Fifth Day, 5 Ahau. We are happy to present our version of the Sacred Calendar to all who wish to follow the Days of the Tzolkin.

In Lak'ech (I am another you),
