This two part presentation simply explains the Mayan Calendar, which ends 28 October 2011, and its relevance to the times we live in now.

We will discuss the Tzolkin and the Tun (and the Gregorian calendar), why time appears to be speeding up, what the Mayan Calendar end date actually means, and how the Mayan Calendar is connected to our ever evolving consciousness.

This discussion takes you on a journey through creation, providing historical events as time lines, and concludes by looking at the possible future ahead.

Gain insight and a deeper understanding of how creation and our consciousness is unfolding.

*Featuring information by Ian Xel Lungold and Dr. Carl Calleman.*

## TESTIMONIALS

Toni needs to be heard. What she has to pass on to you about the Mayan Calendar is as informative as it is challenging and it will awaken you to how your consciousness is unfolding. You will have a whole new perspective as you begin to see and understand what is happening around you and in the world today. Toni provides lots of examples as she goes through the stages/timelines in the Mayan Calendar and this makes it easy to understand and to follow her presentation. In addition, Toni is very articulate, passionate and enthusiastic and her presentations come alive as she shares a bit of her own journey and life experiences which graphically demonstrates the path that she has chosen to be on in this life time. Toni is intelligent and analytical and researched the work done by Ian Lungold as she needed scientific proof and validation of the Mayan Calendar as it resonated for her. She is now following her inner guidance and nudging to spread this information. Toni is a powerful and heart centred being who openly shares her knowledge and is committed to assisting us to evolve and reconnect with who we truly are, individually and collectively.

I have found Toni Burcher takes out all the confusion of the understanding of The Mayan Calendar, and of where we are right now and where we are heading on our journey. Toni presents The Mayan Calendar in a precise but simple way of this understanding. You will enjoy, as much as I did I am sure, having this beautiful Lightworker do what she does best... sharing all her knowledge.

Love and Light, Namaste.

My daughter and I enjoyed the presentation of the "Mayan Calendar". The content and excellent delivery opened up a life changing event in our lives. I personally enjoyed the information as it put many questions I had for many years (I am 73) to rest. My daughter and I had not attended a presentation of anything of this nature together before. I had always been the odd one out in my family in the pursuit of these interests. The result for my daughter is that she has now graduated from a Spiritual Awareness Course and is seeking more information on how she can reach her full potential and be a Lightworker!! It has also had a similar effect on her sister... which makes me a very happy mother!! Once again, thank you and blessings.

Toni Burcher's presentation on the Mayan Calendar is the most interesting presentation I have ever attended. Her method of both showing and explaining their calendar, and what it means to present time frame for humanity, is presented in a way that all can understand. Her understanding of the subject is exceptional and her ability to pass this on to others is wonderful. I have been to two presentations and would not hesitate to go to more, as I found them as fascinating as the Mayan culture is incredible.
