"Hi Michael, I just listened again to the reading that you did for me last month. I just wanted to let you know that I think you are very good at what you do! Your reading was so bang-on, it's kinda scary! Cheers," ~ Renay

### **Tip of the Week:**

The **Full Moon in Gemini on December 15** along with **Mercury Stationary Direct in Sagittarius** just hours later is the big news now. A planet 'stations' or appears to stop, just prior to turning retrograde or just prior to turning direct at the end of its

current retrograde cycle. It is like two cars side by side moving on the highway at the same speed each ‘appearing’ to the other to be at a standstill. These moments are considered to increase the ‘weight’ of influence of the planet.

Also noteworthy, **Mercury** in truth-oriented **Sagittarius** and **Jupiter** in communications-oriented **Gemini** are in what is called ‘mutual reception’, or each is in the other planet’s sign of rulership. This auspicious aspect is coinciding with many deceptions, denials, and outright lies too from politicians, the media, and with increased levels of fraud, scams, and theft in society generally, **coming into fuller light**.

This ‘truth-trend’ will steadily increase and come to a peak over the next couple of weeks as **Mercury** approaches **exact opposition with Jupiter on December 26**.

There is a lot more ringing on the airwaves than Christmas Carols this year.

Have a great week.

## Weekly Horoscope:

**Aries (Mar 21 – Apr 20)**

You are likely busy on a variety of fronts, or at least in your own mind. The steady process of dissolution associated with Saturn and Neptune in Pisces continues in the background, according to your evolutionary need. The Mercury/Jupiter and Sagittarius/Gemini factor is pushing you to be self-honest and stoic; both signs of true strength.

### **Taurus (Apr 20 – May 21)**

Some cycles are deeper than others and this looks like it is one of those currently. Positively, you are getting long-sought answers and/or generating many new ideas that you probably hope to harness for their practical value. Acquiring new tools, skills, and other such resources is featured as you aspire to push through into new territory.

### **Gemini (May 21 – Jun 21)**

An expansive phase on relationship fronts continues to expose you to new people and associated opportunities. Keeping an open mind and reserving judgment is part of the plot. ‘Different strokes for different folks’, as the cliché goes. Simply allowing for interest, fascination and wonder too, will help you see through to what is true.

### **Cancer (Jun 21 – Jul 22)**

When it comes to quality lifestyle choices, including faith in your daily flow supports health and happiness as it serves to alleviate worry and stress. It is human to succumb to the illusion of control beyond the scope of one's own self-management. In traffic, our job is to steer the car, not the traffic. A key to disrupting this reactive tendency is to breathe deeply and consciously.

### **Leo (Jul 22 – Aug 23)**

Opportunities to experience an opening of your heart, which is the key to also opening your mind, are available now. It can be activated with sincere gratitude for being a part of the drama of life, at all... You know it is working when you notice that you are more fully present with people and situations, peaceful, and experiencing a steady flow of inspiration.

### **Virgo (Aug 23 – Sep 22)**

Happy to hover close to home, yet fully focused on larger, practical realities like your career and earning potential, is on your mind. Thinking about what is possible as opposed to lapsing into worry may be the main challenge. Aim to be willing and to do whatever it takes, without lapsing into desperation, and enjoy the creative process as

fully as possible.

### **Libra (Sep 22 – Oct 22)**

Stretching to increase and expand your perspectives on reality and your dreams, goals, and role in it going forward, continues. Accept that whatever you see and might assume is 'it', or reality, that there is ever much more to know. So, keep an open mind and avoid assumptions or conclusions. Above all, focus on getting healthier.

### **Scorpio (Oct 22 – Nov 21)**

As the most complex sign of the Zodiac, that of sex, death, and taxes..., you tend to have both more resources than average, but also more complexity with which you are destined to contend. The death part is usually the most challenging. Having faith that death is ever-followed by some form of rebirth, helps to have faith and to hit your reset button... again... now.

### **Sagittarius (Nov 21 – Dec 21)**

A new sense of adventure should be evident by now. It includes expanding your social outreach. Yet, at deeper levels is also the challenge of confronting possible fears that are standing in the way of laying claim to latent gifts and powers. Simply set your sights on identifying these fears, as with ask and you will receive, and you will.

### **Capricorn (Dec 21 – Jan 19)**

It seems that everyone is being challenged to see a bigger picture. As important as facts can be, imagination is the key to soaring to greater heights. Stretching your imagination is an important aspect of your destiny at this time. Consider this famous quote: "Truth is stranger than fiction, but it is because fiction is obliged to stick to possibilities; truth isn't."

### **Aquarius (Jan 19 – Feb 19)**

Contending with the implications or beliefs, theories, facts and truths is an important feature of your destiny. Beyond intellect, it indicates an invitation to be experiential and experimental. Life can be described as having infinite facets and the game includes the adventure of exploring them, without attachment to outcomes or absolutes. After all, only the absolute is absolute.

### **Pisces (Feb 19 – Mar 20)**

The demands and realities of your public and professional life require your full

attention now. Your willingness to learn new approaches is featured. To this end, brainstorm for ideas and possibilities and outline as many as you can that make sense for your situation. Diligent effort for the sake of strategic follow-through is the other extra important task.
