"This is seriously the best reading I have ever received in my life. I have had previous astrology readings and nothing compares to the guidance, inspiration, and validation I received from Michael today. I am totally mind blown with the accuracy of the information I received." ~ Neena

Tip of the Week:

Sunday, August 4 is special because on that day there will be a **New Moon** at 12 **Leo** 33, **Mercury** in **Virgo** will **turn retrograde**, and **Venus** will **enter Virgo**.

By **August 7**, **Mercury and Venus** will form a **conjunction** to begin a new cycle between the two inner planets.

While the implications are many-layered, as usual, we can trace some of their emphasis and destined influence simply by how they are positioned in our own personal Solar Charts as determined by our Sun Sign, which is **how Horoscopes work**, based on principles of holism and fractals.

So, this week's Horoscope will emphasize these themes for each sign.

Have a great week!

Weekly Horoscope:

Aries (Mar 21 – Apr 19)

The Leo New Moon aligns favorably with your Sun Sign. It will inspire you to let your inner child out to play. However, it is also symbolically associated with themes of 'let go and let God'. The Mercury/Venus/Virgo factor will challenge you to think critically and engage diplomatically.

Taurus (Apr 20 – May 20)

This New Moon cycle will bring extra emphasis to changes close to home. Creative improvements are also indicated, and these could require more effort and investment than you want. Get ready to be busy on a variety of fronts and in ways that push you to address core needs.

Gemini (May 21 – Jun 21)

New perspectives about your place in the world and your sense of responsibility will be activated by this New Moon. You should be prepared to 'pay your dues' somehow. This could amount to simply getting clear on meaningful contributions that feel important.

Cancer (Jun 22 – Jul 22)

Getting clear on your priorities continues and deepens due to this New Moon. Circumstances will guide you to take a philosophical approach and to be open to new knowledge, which could even alter existing notions, quite considerably. The challenge includes widening your scope of reality.

Leo (Jul 23 – Aug 23)

This New Moon in your sign is destined to spark new beginnings and initiatives. These are associated with a process of deep changes within you, which will have a metamorphic effect. The results of it will take 12-18 months, so aim to identify them and engage faithfully and cooperatively.

Virgo (Aug 24 – Sep 22)

The New Moon will serve to trigger new levels of resolve and commitment to new knowledge. It includes deep dives to further reaches than you have ever achieved before. Fortunately, the activated Virgo factor is quite in your favor, but you should be ready to earn it with diligent efforts.

Libra (Sep 23 – Oct 22)

Leo is your friendly sign so the New Moon there will bring extra attention to this aspect of your life. Positively, existing friendships will deepen, you could make new friends, and there is the possibility that some friendships could simply seem to dissolve. The key is to trust the flow and avoid over-analysis.

Scorpio (Oct 23 – Nov 21)

Leo is the sign closely associated with your social status and career orientation. In this regard, you aspire to create a niche somehow, or more specifically, target a career in the arts or at least one that includes creativity. The time is right to dream and realistically assess the possibilities.

Sagittarius (Nov 22 – Dec 21)

The Leo lunar seed will inspire new adventures. The inner challenge associated is that to answer the call, you may have to identify and confront certain lingering fears. The key to doing so is to also project into the future to determine the price of procrastination or the rewards you stand to achieve.

Capricorn (Dec 22 – Jan 19)

Leo is a somewhat complex sign for you. It tends to indicate what and how you need to purge persistent ego patterns that simply are not good for you. This requires increasing your capacity for self-honesty and the discipline and determination to identify and break from unhealthy habits.

Aquarius (Jan 20 – Feb 19)

Leo is your polar opposite sign and features strongly in your relationship life. So, this New Moon is destined to synchronize with new encounters and experiences. Given the Virgo factor, it might be wise to exercise discernment and take the time for others to earn your trust before deepening commitments.

Pisces (Feb 20 – Mar 20)

Leo is directly associated with themes and realities associated with your lifestyle and specifically that associated with healthy habits or lack thereof. So, expect to bring extra emphasis to the fore inspired by the reality that healthy is the true beautiful and it feels good too. P.S. Commit to the steps you need to take.
