“Thank you for your brilliant coaching! I appreciate your honesty and careful approach regarding giving advice. Your guidance helps me to find my own way, yet with greater confidence and with better tools than I had before.” – Elin

Tip of the Week:

Summer is in its final stretch and officially ends with **Autumn Equinox on September 22**. The waxing of the Moon since its recent seed event for yet another

cycle that began on September 2 comes to a **Full Moon in Pisces** on **September 17** as the **Harvest Moon**, and due to its close proximity to Earth in its elliptical orbit it will appear large and epic as a so-called Super Moon.

Meanwhile, **Mercury remains in Leo** where at worst, it has been busy stirring intrigue and upset on relationship fronts.

Yet, **Virgo's** influence indicates themes of completion, resolution, and healing.

Mercury joining the **Sun in the sign of Virgo** 'the Virgin' which is accurately understood as symbolic of resourcefulness, self-sufficiency, and wholesomeness, will contribute to the process.

So, tune in and cooperatively co-create to harness this influence according to the rhythms and realities of your world.

Have a great week!

Weekly Horoscope:

Aries (Mar 21 – Apr 20)

This could amount to the last call on the summer. Although there technically remain a couple of weeks, beyond the weather alone, the shift can be understood as Mercury

entering practical, analytical, earthy Virgo. Combined with other factors, back to work you go, so enjoy this last blast.

Taurus (Apr 20 – May 21)

Weaving creativity into your work is a core aspiration and is especially strong these days. This trend will end soon so make the necessary effort to get it in this week. If you do, the momentum could see you through the month and maybe longer. 'When' we initiate does matter, and the time is now.

Gemini (May 21 – Jun 21)

Directing your focus to the home front will prove extra satisfying now. Use this inspiration to tackle projects that have been waiting for their time. These are completion projects, the ones that have been pushed to the side due to other priorities. You will likely be able to handle larger tasks with relative ease.

Cancer (Jun 21 – Jul 22)

The busy bee is getting busier with beautifying. Your home is your canvas. Creating a more secure and stable base is a beautiful thing too. Either way, your goal includes feeling inspired and confident. A bold, determined and edgy mood can be harnessed to push through obstacles.

Leo (Jul 22 – Aug 23)

Investments of your time, energy, and focus, continues. The energy part could include money. A steady learning curve is also indicated. An inventive, experimental approach might prove to work best. You will also very soon experience an increased demand on your time and attention. Get ready to be busy behind the scenes.

Virgo (Aug 23 – Sep 22)

Initiative, increase, and expansion are keywords for you now. Your finances could improve measurably over the coming months. The increase could also touch upon creative abilities and your spiritual focus too. Yet, to succeed, you will have to make deliberate efforts with discipline and follow through.

Libra (Sep 22 – Oct 22)

A deep dive into the hidden layers of your mind is calling you within. This summons will get progressively louder over the coming weeks. On the other hand, an assertive drive in your professional life could include training. Whether you are giving or

receiving, the ability to concentrate more than usual could be required.

Scorpio (Oct 22 – Nov 21)

Exploring new aspects of your sense of individuality continues. It includes an adventurous determination to confront limitations and obstructions, whether within or without. Returns for past efforts, or the liabilities of the lack thereof, are rolling in quickly now revealing the quality and effectiveness of your efforts.

Sagittarius (Nov 21 – Dec 21)

Advancing your position, publicly and/or professionally is in the spotlight. This trend will continue and deepen. While what you know matters, who you know could have more leverage at this time. Be willing to socialize, fraternize, and aim to meet new people who can help further your interests and ambitions

Capricorn (Dec 21 – Jan 19)

Increase and expansion is going on everywhere these days and you are getting your share too. Some of it is due to other old stuff getting cleared. It may feel like you are melting at this time. But if you are impatient and are trying to force things, to push the proverbial river, you may well undergo a meltdown. Plan now to go big later.

Aquarius (Jan 19 – Feb 19)

You too are destined to dig deep now. This process has been underway for a couple of weeks already and will continue for a couple more. Yet, you are beginning to see a new light like a bright shining star in your sky. It will get brighter yet, especially later this month and in October. It may well be calling you out to venture far.

Pisces (Feb 19 – Mar 20)

A steady increase on relationship fronts continues. Returns and rewards are featured. Yet, you will have to work for them, faithfully, diligently, and creatively. If you can gain a lot from the process itself you will already be richly rewarded. In other words, there is much to do and it could even result in mastery.
